Education

Kennesaw State University
BS in Software Engineering

Marietta, GA
Aug 2024 – present

West Georgia Technical College

AAS in Computer Programming, Computer Support Specialist

Douglasville, GA
June 2022 – May 2024

- FBLA Collegiate Chapter **Vice President**, 2023
- Georgia FBLA Collegiate **Vice President of Communication**, 2024

Experience

IT Systems Tech

Douglas County Community Services Board DBA ONE Community Health Solution

Douglasville, GA
Apr 2024 – present

- Developed a Python ETL pipeline to migrate EHR provider data, reducing a multi-month manual process to approximately two hours of automated execution.
- Developed and maintained Python reporting infrastructure using Ibis and DuckDB, improving operational accountability and reducing missed notes and charge slips by 99%.

Overnight IT Service Desk Analyst

Intelliteach DBA Frontline Managed Services

Atlanta, GA
Feb 2020 – Aug 2021

- Achieved 5% growth for SLA using technical skills to solve tickets and improve documentation.

Projects

Report Automation

Apr 2024 – present

Automated reports from company's Electronic Healthcare System using Data engineering principles such as ETL.

- Made a manual process that would take months possible in the span of a couple hours.
- Made tracking certain KPI's possible, increasing our compliance with our contracts.

Marketing Ai

Jan 2024 – June 2024

Lead the development of a Python application that ran a local LLM using Ollama to help marketing teams generate campaigns from trending news articles.

- This project won 1st place in Computer Science Case Study at the 2024 National FBLA Leadership Conference.
