Education

Kennesaw State University

BS in Software Engineering

Marietta, GA

Aug 2024 – present

West Georgia Technical College

AAS in Computer Programming, Computer Support Specialist

Douglasville, GA

June 2022 – May 2024

- FBLA Collegiate Chapter **Vice President**, 2023
- Georgia FBLA Collegiate **Vice President of Communication**, 2024

Experience

IT Systems Tech

Douglas County Community Services Board DBA ONE Community Health Solution

Douglasville, GA

Apr 2024 – present

- Developed a Python ETL pipeline to migrate EHR provider data, reducing a multi-month manual process to approximately two hours of automated execution.
- Developed and maintained Python reporting infrastructure using Ibis and DuckDB, improving operational accountability and reducing missed notes and charge slips by 99%.

Overnight IT Service Desk Analyst

Intelliteach DBA Frontline Managed Services

Atlanta, GA

Feb 2020 – Aug 2021

- Achieved 5% growth for SLA using technical skills to solve tickets and improve documentation.

Projects

Report Automation

Automated reports from company's Electronic Healthcare System using Data engineering principles such as ETL.

Apr 2024 – present

- Made a manual process that would take months possible in the span of a couple hours.
- Made tracking certain KPI's possible, increasing our compliance with our contracts.

Marketing Ai

Lead the development of a Python application that ran a local LLM using Ollama to help marketing teams generate campaigns from trending news articles.

Jan 2024 – June 2024

- This project won 1st place in Computer Science Case Study at the 2024 National FBLA Leadership Conference.
